

LESLIE AND MYRA DIETZ ARE HERE

Children of Cameron Dam Defender Tell Interesting Story

Leslie and Myra Dietz, son and daughter, respectively, of John Dietz, "the defender of Cameron dam," are in Calumet, having come here to give illustrated lectures at the Royal theater tonight and tomorrow night. They have been lecturing in various parts of the country since Miss Dietz's recovery from the bullet wound she received at the hands of Wisconsin deputies, while driving to town about a week before the Dietz home was attacked by officers.

An interesting story is told by Dietz in the trouble leading up to his father's arrest and imprisonment.

Mr. Dietz has strong hopes of his father being pardoned by the governor of Wisconsin. He was found guilty of the charge of murder and was sent to prison for life, but the governor has promised to take his case up after election. Within the past few months persons containing the names of thousands of Wisconsin citizens have been sent to the governor, requesting him to pardon Dietz.

The members of the Dietz family are paying off a debt of thousands of dollars, contracted in defending the senior Dietz. He had three lawyers employed for three years at an average of \$25 a day. Both sons and the daughter are lecturing and they are making big money, as they are being greeted by packed houses everywhere they appear. In addition to their lectures they also take slide pictures of the dam, the home and many other interesting scenes.

Dam on Dietz's Land.

Speaking of the trouble that led up to his father's action in preventing the Chippewa Lumber & Boom company from using the dam, Mr. Dietz said that the dam was located on his father's land and that the company wanted to use it without paying for the privilege. By using the dam they also flooded his land, practically destroying his farm. All he asked them was ten cents a thousand feet for the lumber that passed through the dam. This is the amount allowed under the Wisconsin statute. The company refused to give him a cent, in spite of the fact that the corporation was collecting from other lumber operators a fee of twenty-five cents a thousand feet for the logs that passed through its dam on Flambeau river, a short distance from Cameron dam. Before Mr. Dietz took any action against the lumber company it was proven conclusively by the corporation's own surveys that they had no right whatever to the dam, as all of it was on the Dietz land, and not on the company's land, as they at first supposed. After the report of the engineers was given out, Mr. Dietz placed signs on his property, including trespassing and the company's employees who were in sympathy with Dietz refused to work there.

OLIVE Tablets OIL the Bowels

A PHYSICIAN'S SUBSTITUTE FOR DANGEROUS CALOMEL.

When you feel that your liver and bowels need help take Dr. Edwards' Olive Tablets. Substitute for Calomel. Calomel is effective, but dangerous—causing bad after-effects.

Olive Tablets are especially made to take the place of Calomel. Dr. Edwards for years has been Calomeling. He saw its dangers and its disadvantages in 17 years' practice, treating patients for all kinds of liver and bowel complaints. In his efforts to do without Calomel he developed his now famous little olive-oil coated tablets. Olive Tablets are mild but effective. Safe and sure. Pleasant to take but unfailing in results.

Olive Tablets oil the bowels just enough to start Nature's own action, and they tone up the liver at the same time. They are made from a rare combination of vegetable compounds joined with olive oil.

If you want to regain that feeling of buoyant buoyancy and clear thought take Dr. Edwards' Olive Tablets. They work like a vacation. 19 and 12 cents per box.

"Every little Olive Tablet has a movement all its own."

The Olive Tablet Co., Columbus, O.

Admission 5c and 10c

The Dietz family is now living at Mayville, Wis. A few days ago Leslie went up to see the old home, and while there he attempted to count the bullet holes that were in the building from the shots fired by the deputies, who stormed the place a year ago last May. In one door alone there were twenty-four bullet holes. Mr. Dietz said it is estimated that 2,000 shots were fired by the officers and while none of the members of the family did any shooting, as they were all hiding behind barricades of boxes, furniture, etc., his father was shot through the hand by an exploding bullet, which crippled two of his fingers. When Mr. Dietz says that it was the intention of the officers to wipe out the entire family, his youngest daughter was sent out with a white flag, as a sign of surrender. Mr. Dietz said there was about ninety men in the crowd that did the shooting. He said that in order to work the men up to a point where they could be depended upon to use their guns they were supplied with liquor, and were on the grounds for nearly a week before the attack was commenced. He said that after the surrender hundreds of beer and liquor bottles were found scattered over the grounds where the officers made their stand.

HIGHER SALARIES URGED FOR OFFICERS OF STATE

Lanning, Mich., Dec. 8.—A bill will probably be introduced in the next legislature to raise the salaries of most of the state officers. It is not likely the present pay of the justices of the supreme court and attorney-general will be disturbed. The former draw \$7,000 a year and the latter \$5,000.

The information concerning the proposed bill comes direct from stenographers in one state department who claim to have been at work on the preliminary draft of such a measure.

Most of the state officers below governor receive \$2,500 per year and expenses. Those classified at this rate are secretary of state, land commissioner, secretary of the board of health, state treasurer, auditor-general, secretary of the state board of corrections and charities, secretary of the railroad commission, secretary of the industrial board, tax commissioner, quartermaster-general, adjutant, general, labor commissioner and highway commissioner. The railroad commissioners receive \$2,000 per year, the industrial commissioners \$2,500, the insurance commissioner \$3,500 and the latter's deputy \$2,500.

The supporters of the bill have a mass of figures from other states, and it looks as though opponents of the step will have a hard time dodging the fact that Michigan pays its officials about as poorly as any state in the country.

This is especially true of the special commissioners of the tax, insurance, industrial and insurance departments. Some of the strongest supporters of the bill are officers of the state who will probably never be reappointed or be candidates for re-election.

In his annual report Insurance Commissioner Palmer recommended that the salary of his successor be made \$5,000, although the office is already one of the best paid in the state.

THE RABBIT AS A RACER.

A rabbit can travel at the rate of fifty-five miles an hour. This was proved here today when one of the little animals made that rate of speed for a half a mile in front of the motorcycle of County Traffic Officer Emil Agraz, who was chasing a speeder. As Agraz overhauled the automobile he crowded on a little more speed and this put the rabbit out of the race. As the scared animal turned out of the road he lost his balance and turned turtle, rolling up against a fence. —San Jose Correspondence San Francisco Chronicle.

In case Michigan returns to the Western Conference games with Penn. Cornell and Syracuse will have to be cut out of the Wolverine's schedule, on account of the Conference rule against inter-sectional games.

UPPER PENINSULA

Judge Hudson Holds Over.
Judge-elect Louis H. Fend of Newberry, announces he will not qualify until after the first of January. The state board of canvassers will not complete its work until Dec. 19, and consequently Mr. Fend will not receive the official notification of his election until then and he prefers to let the present judge complete the cases started.

Brimly Bank Opens.
The new bank at Brimley has opened for business and its future appears bright. Wm. H. Wallace, president of the institution, is also president of the Michigan Sugar company and is connected with a number of elevators and other banks in southern Michigan. John Ryan, vice president, has had forty years' experience in the banking business. Archie J. Clark will serve as cashier.

Finds Skeleton on Church Lot.
Carl J. Jones, son of Justice John E. Jones, made a gruesome discovery in the rear of the Baptist church at Menominee when he happened to kick at some sod. His foot struck a bony object and later young Jones found the well-preserved skeleton of an adult. Save for the fact that the skull was partly broken, the human remains were in good condition. The skeleton is believed to be that of a Menominee Indian. The find is being preserved for the present on the porch of the Jones residence.

Pupils Eyes to be Tested.
The pupils in the rural schools of Menominee county will undergo eye tests in the near future, in accordance with a plan which has recently been adopted. That optic trouble is the cause of many a pupil being backward in his studies is a fact that has been established and schools throughout the country are adopting methods to eliminate this. County Commissioner Hubbard has received a number of vision charts which will be distributed among the schools and tests at certain intervals will be given the boys and girls. First one eye and then the other will be tested and by the result it will be determined whether or not an optician should be consulted. To the parents of all students who are deficient in this matter notes will be sent, stating the cause and advising steps to remedy any fault of vision.

Veteran Engineer is Pensioned.
After being continuously employed

by the Northwestern Railway for forty-five years and serving for forty-one as a locomotive engineer, Amos Parkhurst of Escanaba has been placed on the company's pension list. Two weeks ago Mr. Parkhurst reached the pensioning age of seventy years and on Dec. 1 he received the formal notice placing him on the corporation's list of pensioners. Mr. Parkhurst entered the employ of the company as shopman and fireman in 1867 and in 1871 became a locomotive engineer. For years he pulled some of the most important trains out of Escanaba, but in recent years has been engaged in dispatching engines in the yards. In spite of his seventy years and his long term of continuous service, Mr. Parkhurst is still hale and hearty and will spend his remaining years in enjoying the fruits of his years of labor.

Threatens to Close Cold Theaters.
Mayor Short of the Seneca threatens to close several of the theaters there unless they are kept warmer. The mayor has received complaints, he states, on numerous occasions within the past few weeks and declares he will keep a close watch on the theaters and will compel the operators to keep the buildings in a condition that will not endanger the health of the people who attend them. After the matter was first called to his attention the mayor visited the places where, it is said, the managers do not keep the buildings in the proper condition. He stated Tuesday that in the past few weeks theaters had not been properly heated and patrons had not been properly cared for. "With colder weather coming on," said the mayor, "more care must be taken to properly heat and regulate the air in these buildings, or I will close them."

Attorney Henderson Wins.
Attorney F. D. Mead has returned to Escanaba from Iron Mountain, where he represented Charles Henderson in the recent fight for the office of prosecuting attorney of Dickinson county. After an extended session of the canvassing board Attorney Henderson was declared elected by a majority of fifty-four over Attorney Chester Knight of Norway. Progressive candidate for the office of the county clerk, the attorney general was appealed to for decisions. At the final session of canvassers the vote in Felch township was thrown out, because the ballots in that precinct were not properly initialed by the election officials. The throwing out of the vote in Felch gave Henderson a clear majority of fifty-four and the election of the Republican candidate was conceded by the Knight forces.

ORPHEANS HERE TOMORROW.

Big Concert Attraction Under the Y. M. C. A. Auspices.

There was a good demand for seats when the sale was opened this morning at Forster's news stand for the concert by the Orphean Concert company, which will be at the Calumet theater tomorrow evening, under the auspices of the Y. M. C. A. Lyceum bureau. It is expected there will be a large attendance, as a large number of tickets have been disposed of.

The Orphean Concert troupe consists of four talented young men, E. V. Williams, first tenor and saxophone; E. H. Dennis, second tenor, manager and mellophone; E. W. Crumaker, baritone, cornet and impersonator and V. E. Henry, basso, trombone and violinist.

The following from the Daily Oklahoman, of Oklahoma City, will be read with interest:

"The musical side of the entertainment was furnished by the quartet of splendid young men, the instruments being two cornets, a mellophone and a baritone trombone. Each and every number on the program was heartily enjoyed. The cartoon work of Mr. Henry illustrating 'Swanee River' and 'The Old Chinee,' as the music was rendered, greatly pleased the audience."

EPWORTH LEAGUERS ACTIVE

The newly elected officers of the Epworth Leaguers in the Houghton district of the M. E. church, met Friday evening in the Y. M. C. A. and considered a project to establish a "rest home" for mothers of this district at some convenient point, also plans for a district conference to be held next summer, possibly at Lake Michigan, in conjunction with the Christian Endeavorers of this district. Committees were named to consider both projects.

Levin's Jewelry Co.'s 4 off grand removal sale. Big saving to everybody. Bargains in everything. Come early and select what you want. We will lay it aside for later delivery. Advertisement.
